Congratulations on your purchase of a puppy from the Burkholder family!

We certify that the puppy you purchased is in sound health at the time of the sale to the best of our knowledge. We do our best to provide your family with a happy healthy puppy.

We cannot control the exposure your puppy encounters after leaving here. Puppies sometimes stress when adopted and move to their new homes. This stress can be brought on due to the move, change of diet, too much handling or not eating properly. This stress can bring on things that are dormant such as but not limited to; worms, ear mites, colds, hypoglycemia, coccidia and giardia. These conditions are all treatable and do not warrant a reimbursement.

Any genetic condition deemed to be breeders fault will be warranted for 1 year from puppies date of birth.

If the puppy has to be put down before it is 30 days old due to genetic problems, I will replace the puppy free of charge or give back 50% of the purchase price. In order to get a refund or a replacement puppy I must have confirmation from a certified vet stating the puppy was indeed put down and the reason for putting the puppy down.

Upon the event that your puppy is diagnosed with a hereditary problem that is going to require it to be on medicine for the remainder of its life or if it is diagnosed with hip dysphasia that is going to require hip surgery, then I will refund 50% of the paid price. I do not require that the dog be returned to me. However, I do require proof from two certified vets that the condition exists.

If the puppy is taken to the vet in the first 4 days and is found to be in poor health or has issues that are going to lead to major health problems, I will refund the full price of the puppy. I will of course retake possession of the puppy. I will for no reason assume any vet bills that have been acquired by the buyer of this puppy.

THE ABOVE HAS BEEN READ AND AGREED UPON
